After the 2017 meetings in Mexico, the CBWP edited each of the cases that the RRC had approved. Then, after the RRC voted on several of the edited cases, it prepared and issued the 2018 Supplement to the Case Book. It then updated the online version of the Case Book to include all the changes and additions in the Supplement.

In preparation for the 2018 meetings in the USA, the CBWP studied and commented on each of the four submissions that proposed a new case and the one submission that proposed to revise a case. In their comments, members of the CBWP indicated whether they recommended approval or rejection for each of those submissions. Their recommendations and comments will be brought to the floor when those five submissions are discussed and voted on by the RRC on 31 October.

Dick Rose, CBWP Chairman
