

RRC 2018 Agenda item 7(l) RRS Judicial Matters WP

RRS Judicial Matters

The name of this WP was changed from 'RRS 69 and Judicial Matters WP' to 'RRS Judicial Matters WP' as better describing our work.

We have developed submissions relating to evidence in hearings and the re-classification of hearings for consideration in November 2018.

Following the introduction of urgent rule changes regarding support persons on 1 Jan 2018 it seems that the support person rules have settled down and are generally accepted. While penalties have been imposed on support persons, there are no reports of penalties to competitors as a consequence. This is welcomed by the WP.

There are other procedural and judicial matters that may result in submissions in 2019.
