~~Video Tapes~~

~~—— A Highway of Low Pressure~~

~~CD-ROMs~~

~~—— COSPAS-SARSAT “~~

Current Position 1

As above.

Reason 1

The SOLAS and LSA codes are not really required for this course as the safety requirements for the vessels are in the OSR. The video "A Highway of Low Pressure" can be hard to find. COSPAS-SARSAT CD possibly remove - let the instructor decide how best to teach the subject.

Current Position 2

As above.

Reason 2

A.4.2.1 The trainees do not need these publications in their possession, but they should be available in the classroom. First aid is now covered by a separate course and was removed from the model course therefore this could be removed.

A.4.2.2 remove as they are not small vessel requirements in this instance.
