Offshore Special Regulation– 3.28 Engines, Generators, Fuel

Facilities to stop engines from cockpit

A submission from the Sten Edholm, Special Regulations Sub-Committee

Purpose or Objective
To propose mandatory stop switch facilities for engines

Proposal

New text

3.28.3.c A yacht shall have facilities to stop engines and generators from cockpit

Current Position
None

Reason
In case of fires or other incidents, there shall be possibilities to stop engines and generators from cockpit.
This follows recommendations from the US Sailing report on the Rambler accident at Fastnet Race 2011.
