Access to Information

A submission from the Federación Argentina de Yachting

Proposal

Add the following Regulation:

Members of Council shall be granted the right of access to all information controlled in any way by ISAF or its related companies. This will continue the access to ISAF information that Council members currently have.

Current Position

As currently Directors of ISAF, Members of Council have a responsibility and obligation to understand the operations of ISAF and as such have the right to access information about ISAF

Reason

The Council members are given the power to manage the business of the Federation and unless they are granted the same rights that the Executive and other Directors have they will not be able to properly manage their responsibilities to the sailing community nor be able to make proper decisions.

As the composition of the board of directors may change, and as the members of council has been assured that there will be no change in their duties this is a way to help ensure that council still has some awareness of what is really happening at ISAF. Good decisions can not be made without good information being shared.
