Section H – Measurement Instructions
INTRODUCTION

The Techno 293 Class is devoted to fostering the development of windsurf racing for competitors under the age of 17 years old around the world through the promotion of an inexpensive racing format.

The Techno 293 Class uses a sailboard designed by BicSport.

Techno 293 Class hulls, hull appendages, rigs and sails are measurement/manufacturing controlled.

Techno 293 Class hulls and hull appendages shall be built by a manufacturer licensed by Bic Sport in consultation with the ISAF. Equipment is required to comply with the Techno 293 One Design Building Specification and is subject to an ISAF approved manufacturing control system.

Techno 293 Class rigs and sails shall be included on a Class Approved list – appended to these Class Rules. The Approved List is a selection of rigs that have been trialled and approved as suitable for use with the Techno 293 One Design hull, and which are available to the sailor at a maximum cost set by the Class.

After Techno 293 hulls, hull appendages, rigs and sails have left the manufacturer, they may only be altered to the extent permitted in Section C of the class rules.

Rules regulating the use of equipment during a race are contained in Section C of these class rules, in ERS Part I and in the Racing Rules of Sailing.

This introduction only provides an informal background and the Techno 293 Class Rules proper begin on the next page.
