

Executive Committee Strategy – Executive Minutes 7(a)(ii) 30 April – 2 May 2002

The Executive Committee ask that the Regional Games Committee address the following as a priority:

- work with the regional organizations to convince them to be more proactive and not so political (e.g. northern vs. southern Europe)
- identify Regional Games
- work with the regional organizations as a vehicle for the promotion of the sport
- work with the Member National Authorities (MNAs) to encourage them to take the regional games more seriously and send people at the top level
- work with the regional organizations to further provide guidelines / define their terms of reference
- if the regional organizations cannot broaden their scope (further than the regional games) then to consider how else the Federation can achieve this?
- encourage the larger/established nations to support the regional organizations / emerging nations
