Class Rule Changes

A submission from the International Tempest Class

PROPOSAL:

Amend current rule 5.2(a) as follows:

5.2(a) The hull shall be measured according to the Hull Measurement Plan which is part of these rules. Measurement Templates shall be applied to the stem and transversely at horizontal distances from an extension of the vertical centreline of the transom of 330mm. The keel ~~rocker~~ line shall be measured from a base line formed as shown on the Hull Measurement Plan.

CURRENT POSITION:

See above.

REASON:

To match the ERS definition.
